

DF 20 Comfort, DF 30 Comfort – Montage- und Bedienungsanleitung

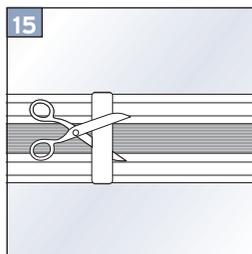

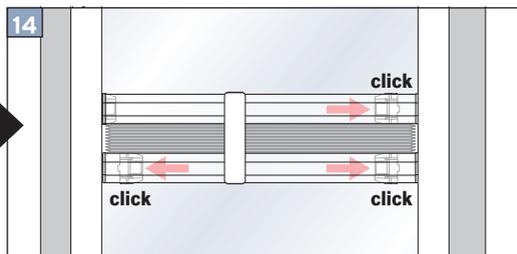

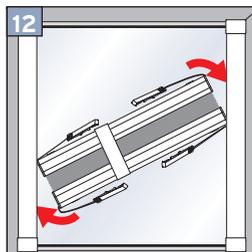

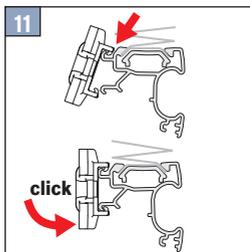

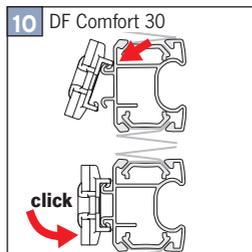

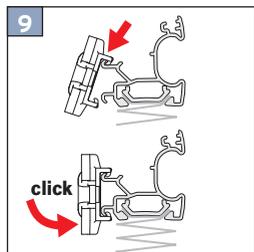

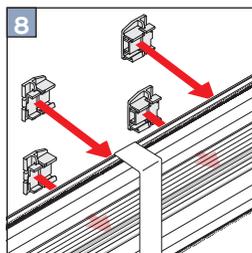

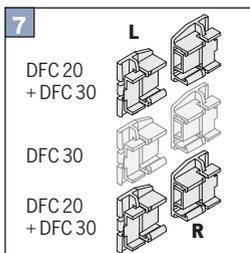

Bitte nur beiliegende Schrauben verwenden.

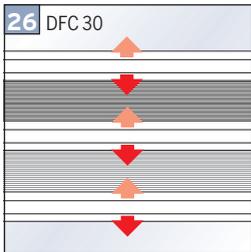

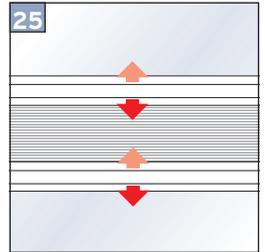

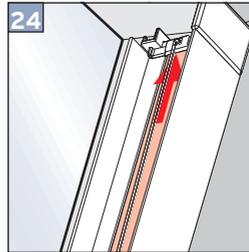

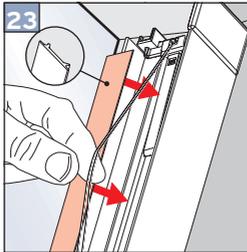

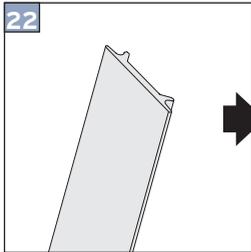

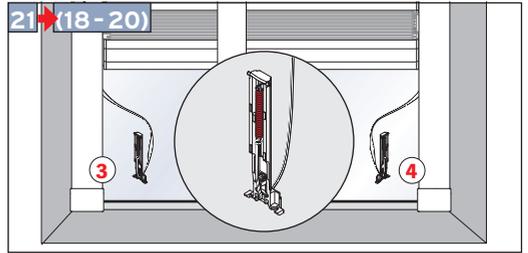

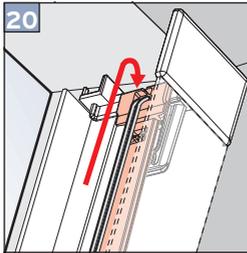

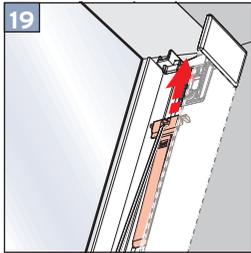

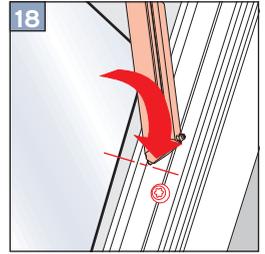

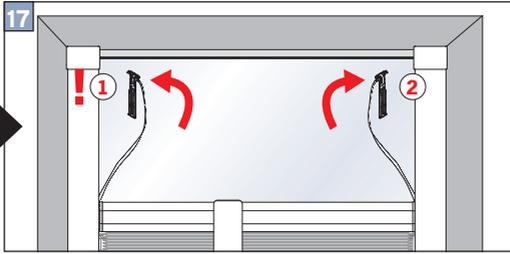

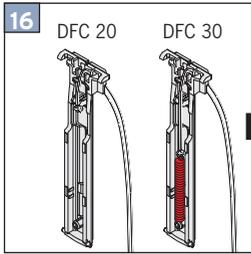

MONTAGE

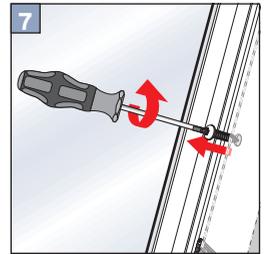

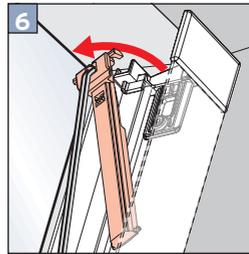

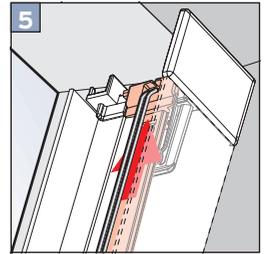

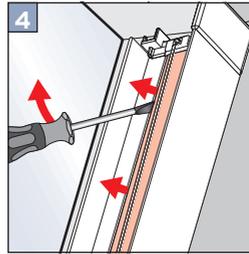

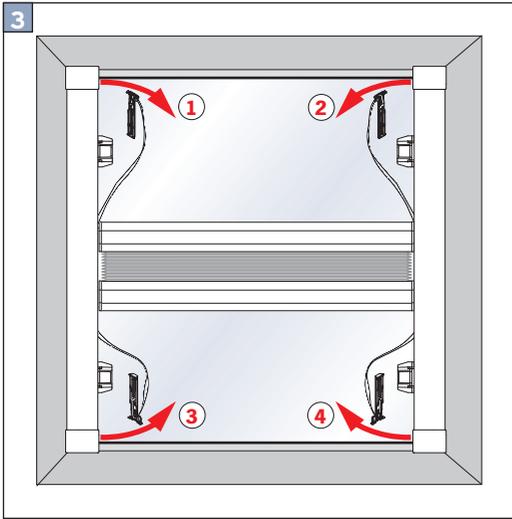

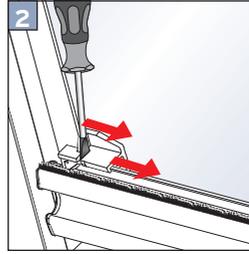

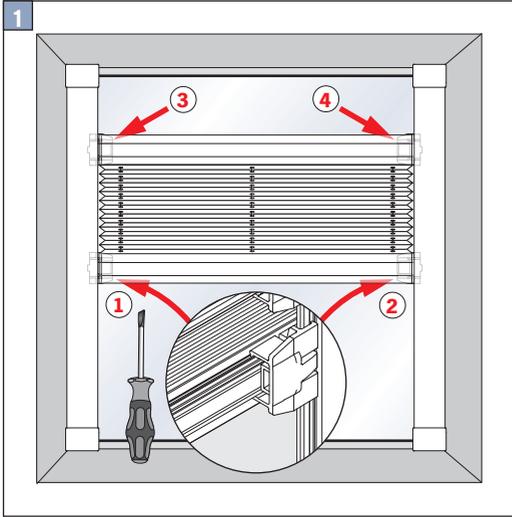

Schrauben nicht überdrehen!

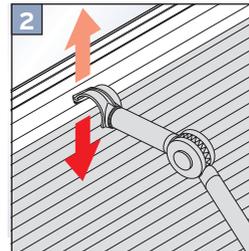

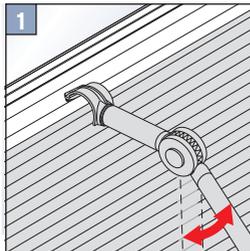

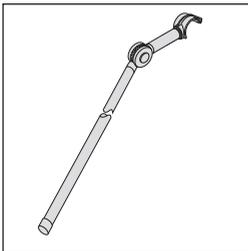

DEMONTAGE

Optional: Bedienung mit Bedienstab

Die Modelle DF Comfort 20 und DF Comfort 30 haben nicht nur eine elegante Optik, sondern überzeugen auch dank den formschönen Seiten-Schienen. Die seitlichen Führungsschienen helfen dabei, den seitlichen Lichteinfall zu unterbinden. Bei der Verwendung von Wabenplissees kann so eine 100%ige Verdunklung der Räume erreicht werden.

Dank der einfachen Montage und Bedienung ist es eine der beliebtesten Fensterdekos in allen Zimmern mit Fenstern in Dachschrägen.

Hinweis: Die verklebte Montage ist bei Dachfenstern leider grundsätzlich nicht möglich.
