

## VS2 Slide – Montage- und Bedienungsanleitung

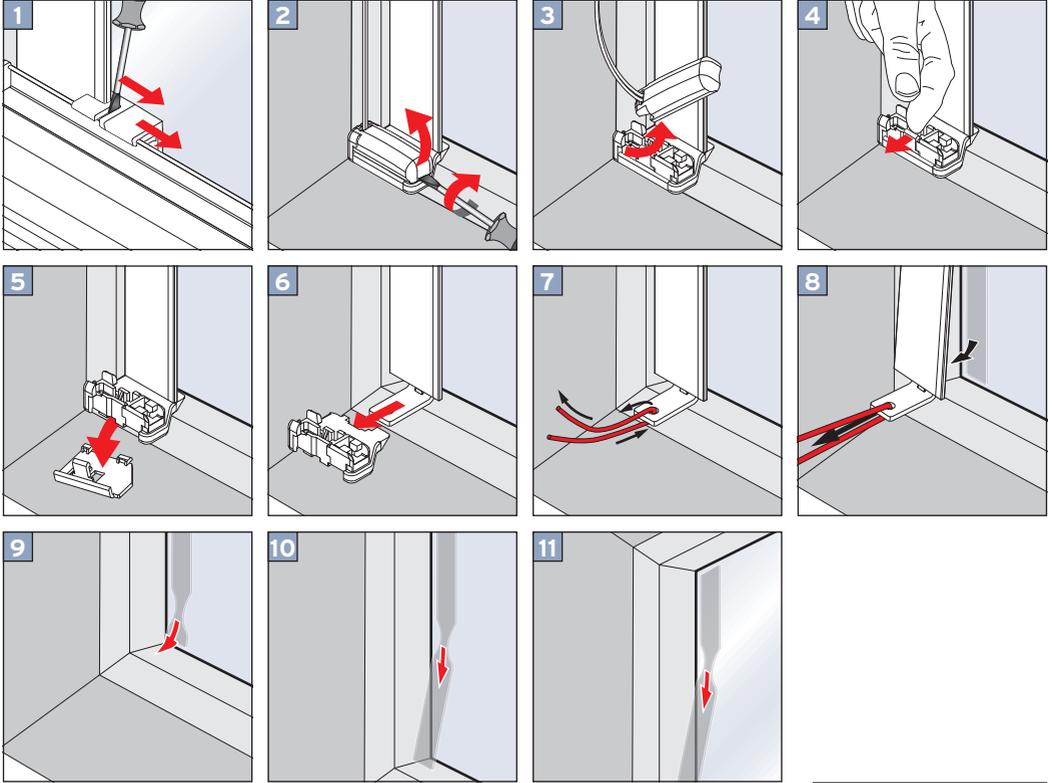

# Falzmontage

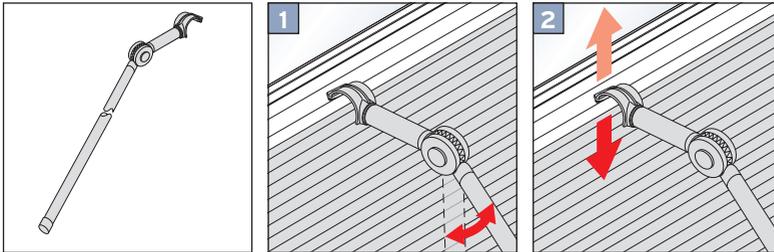

## DEMONTAGE

## Optional: Bedienung mit Bedienstab

Bei den VS2 Slide Modellen werden die Klebeleisten rechts und links am Fensterrand auf die Scheibe geklebt. An diesen Klebeleisten wird [das Plissee](#) montiert, wobei die Plisseeschienen direkt an den Klebeleisten fixiert werden und somit eine komfortable Bedienung gewährleisten. Die Führung der Schienen bringt außerdem den Vorteil mit sich, dass es bei Kipp-Fenstern zu keinem Durchhängen kommt. Die Montage ist nahezu bei allen Fensterarten möglich - egal ob Holz, Aluminium oder Kunststoff.

Die Demontage der Klebeleisten ist auch nach vielen Jahren problemlos und ohne Rückstände möglich.
