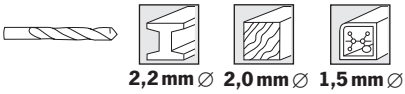
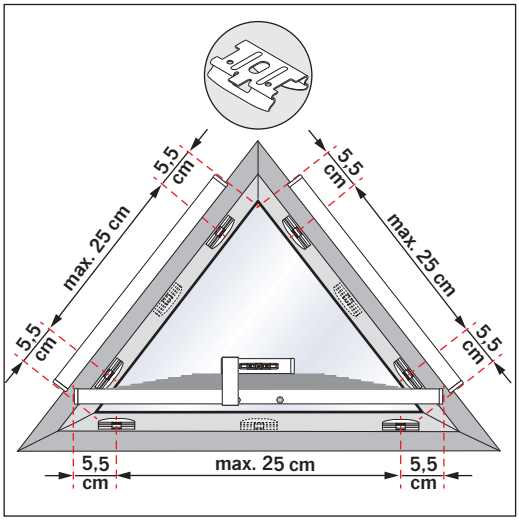
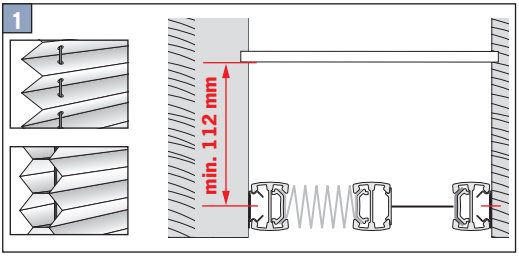
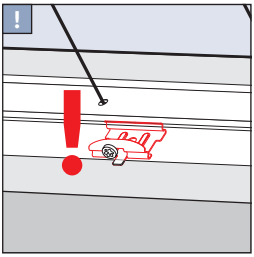
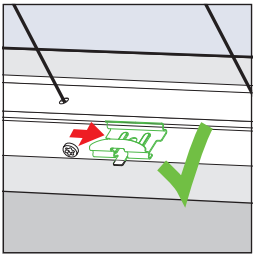
Falzmontage

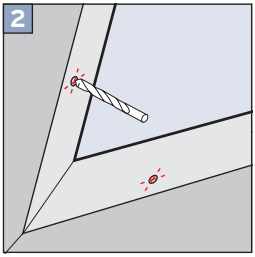


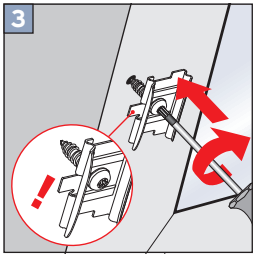


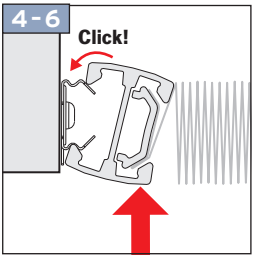


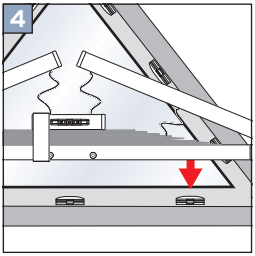


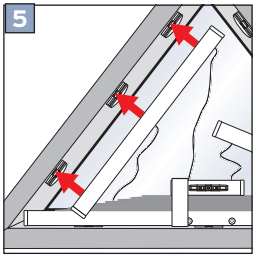


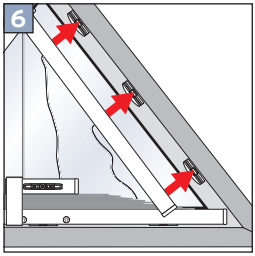


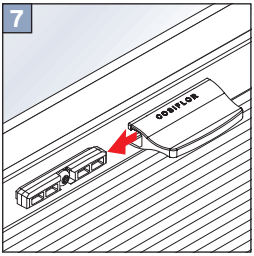


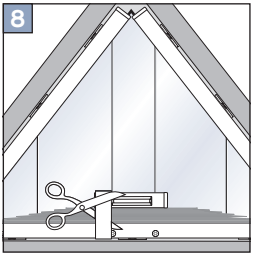


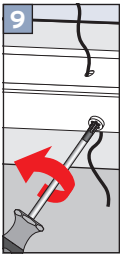


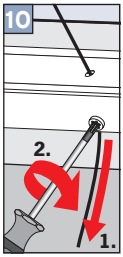


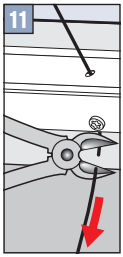


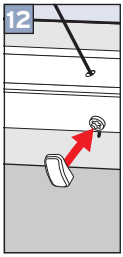


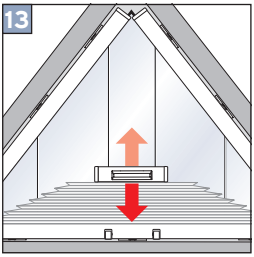


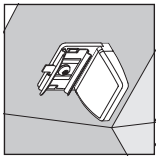




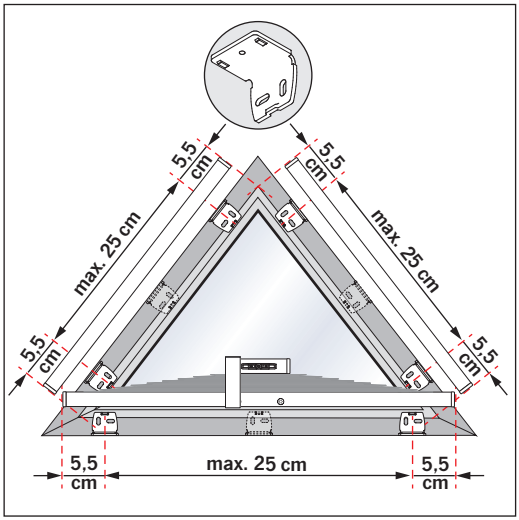


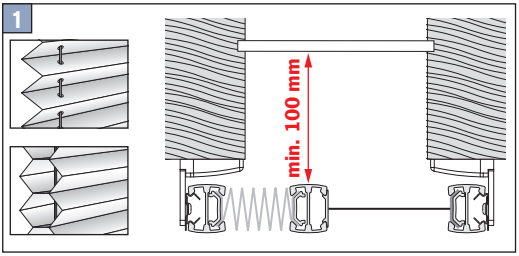


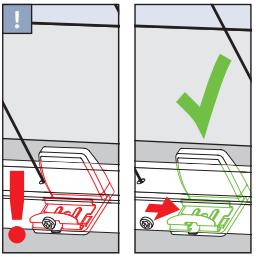


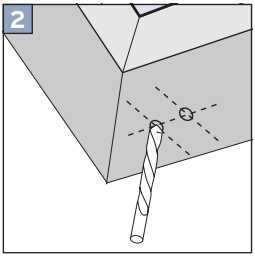


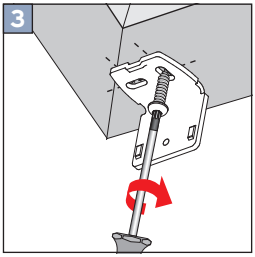
Winkelmontage

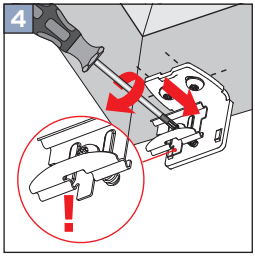


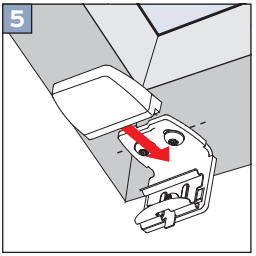


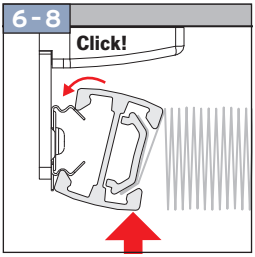


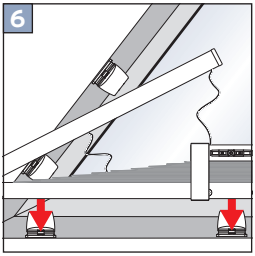


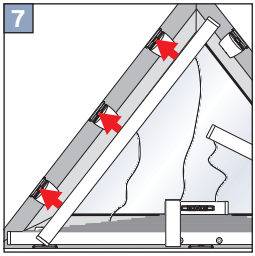


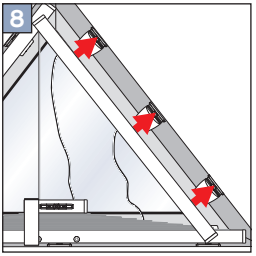


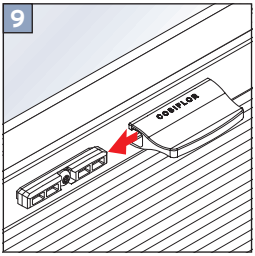


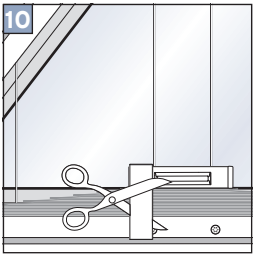


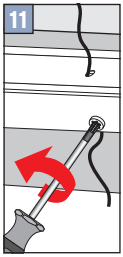


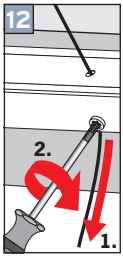


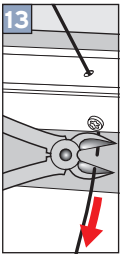


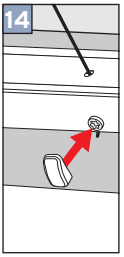


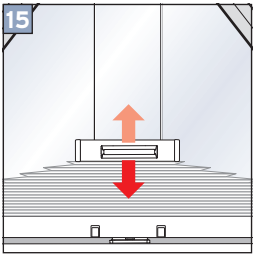




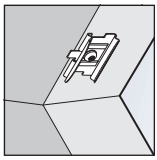




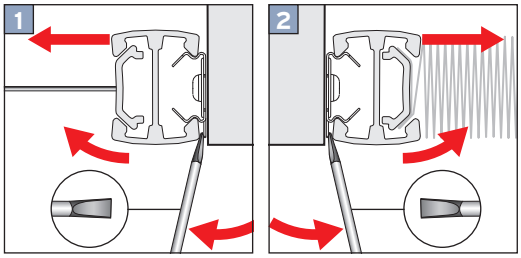


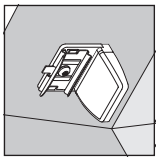


DEMONTAGE

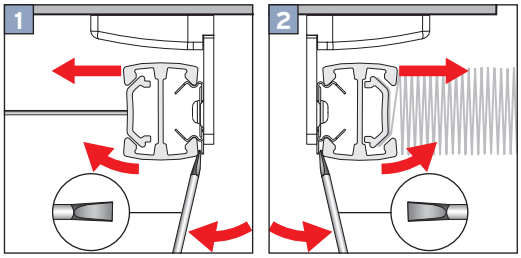


Falzmontage

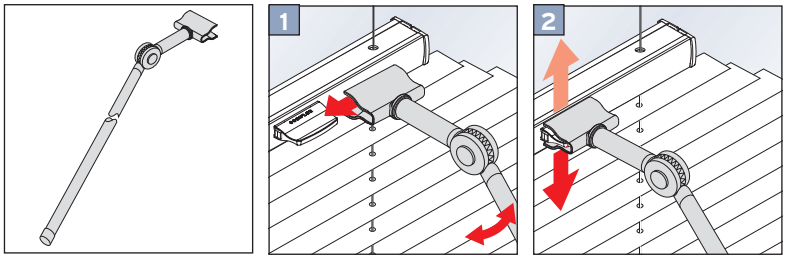




Winkelmontage



Optional: Bedienung mit Bedienstab



Die dreieckigen Fensterformen treten oft in Kombination mit rechteckigen Fensterflächen in Wintergärten und Dachverglasungen auf. Dieser Plissee-Typ bietet Ihnen die Möglichkeit, gleichmäßige dreieckige Fensterflächen in schräger oder waagerechter Lage mit einem variablen Sicht- und Sonnenschutz mit Stoffen nach Wahl auszustatten. Sie können dieses Dreieck-Plissee per Bediengriff oder zusätzlichem Bedienstab (bis maximal 250cm) variabel öffnen und schließen.
